

PASSED

IN THE BOARD OF COUNTY COMMISSIONERS OF LANE COUNTY, OREGON

RESOLUTION & ORDER) IN THE MATTER OF ADOPTING THE
08-6-25-2) 2008-2009 LANE COUNTY BUDGET, MAKING
) APPROPRIATIONS AND LEVYING TAXES

WHEREAS, the Lane County Budget Committee reviewed and approved the FY 2008-2009 budget document for Lane County on May 22, 2008; and

WHEREAS, after due notice, a public hearing on the FY 2008-2009 budget document was held at 9:00 a.m., in the Board of Commissioners' Conference Room, Lane County Courthouse on June 25, 2008; and

WHEREAS, the Board having fully considered the Lane County Budget Committee's recommendations and the matters discussed at the public hearing; and

WHEREAS, the recommended adjustments to the Approved FY 2008-2009 Budget described in Attachment A were reviewed by the Board at its June 18, 2008 work session and were approved for incorporation into this order; and

WHEREAS, Attachment D is a summary of all changes made to the Proposed Budget including approved Budget Committee adds, reductions and technical adjustments; and

WHEREAS, Attachment E is a chronological summary of the decision-making process engaged in by the Board of Commissioners during which it received information and deliberated, considered the recommendations of the County department directors and County Administrator, weighed and evaluated the County's ability to fund and provide services, the benefits and risks to citizens, the statutory duties of the County, and the programs effectiveness; and

WHEREAS, the Board believes that the FY 2008-2009 budget reflects the best available policy and program choices to achieve the greatest public good and the least private injury; now therefore

IT IS HEREBY ORDERED that the FY 2008-2009 budget for Lane County is hereby adopted; and be it further

ORDERED that having conducted the deliberations reflected in Attachment E, the Board hereby adopts Attachment E and the information received throughout that process as findings in support of this budget; and be it further

ORDERED that the dollar amounts as set forth below are hereby appropriated and the FTE allocations established for the fiscal year beginning July 1, 2008, for the purposes shown below:

And be it further

ORDERED that no greater expenditure of public money shall be made for any specific purpose than the amount appropriated therefore, except as provided by law; and be it further

ORDERED that the Board of Commissioners of Lane County hereby levies the taxes provided for in the adopted budget at the rate of \$1.2793 per \$1,000 of assessed value for operations, and the amount of \$2,950,984 for bonds, and that these taxes are hereby levied upon all taxable property within the County as of 1:00 a.m. July 1, 2008.

The following allocation and categorization subject to the limits of section 11b, Article XI of the Oregon Constitution make up the above tax levies:

	General Government Limitation	Excluded from the Limitation
General Fund	\$1.2793/\$1,000	\$0
Juv. Just. Center Bond Retirement	\$0	\$2,950,984

And, be it further

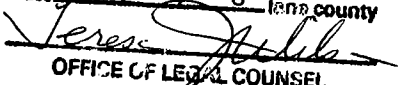

ORDERED that the County Administrator is delegated authority to execute the necessary contract documents as described in Attachment B, 2008-2009 List of Contracts; and be it further

ORDERED that the County Administrator is delegated authority to execute the necessary contracts and intergovernmental agreements as described in Attachment C, Fiscal Year 2008-2009 Intergovernmental Agreements, Association and Membership Dues.

ADOPTED by the Lane County Board of Commissioners this 25th day of June, 2008.

Faye Stewart, Chair
Lane County Board of Commissioners

Introduction

Balancing Lane County's budget has been a constant juggling act since the early nineties. During this time revenue and expenditure trends have been counter to one another. Revenues have either been flat, slow growing or in some cases even decreasing. At the same time, key areas of expense, such as health care and retirement benefits, have been increasing, many times at double-digit rates. This example, when revenues increase at a rate slower than the increase in expenses, creates what is called a structural deficit. To achieve balanced budgets, the County has made annual reductions in 13 of the last 16 years, thereby eroding services year after year, even while the population and demand for services has been increasing.

The FY 08-09 budget was no different and, in fact, was made even more unstable due to the continued uncertainty surrounding federal funding from the Secure Rural Schools and Community Self Determination Act of 2000 (SRS).

Facing similar uncertainties for FY 07-08, the County prepared two budget options – one assuming renewal of SRS funding and the other option assuming no renewal. While ultimately the Budget Committee approved the FY 07-08 Budget assuming renewal of SRS funding, with minimal service reductions in the General Fund, the prioritization process and preparation of a budget option with no SRS funding was a major undertaking. That effort laid the groundwork for what lay ahead in preparing the FY 08-09 Budget – a process which began on the day the FY 07-08 Budget was adopted.

Budget Direction, Service Prioritization, Considerations & Deliberations

June 27, 2007

Budget Adoption and Direction (BO 7-6-27-19): The Board adopted FY 07-08 Budget and directed continued evaluation of the budget with respect to the most likely Secure Rural Schools funding scenario. Board directed gathering of input from citizens as to their priorities.

August to September 2007

Listening Tour: The Board held community dialogues in each of the five districts, engaging citizens in discussions about the County's future, priorities, and finances.

October 2007

Focus Groups and Telephone Survey: Citizens were polled on their service priorities and results were reported to Board.

October 17, 2007

Budget Direction (BO 7-10-17-7): Board ordered increased savings and redirection of funds in the FY 07-08 Budget to increase reserves, anticipating the necessity of future service reductions.

January 2, 2008

Service Guidelines and Budget Direction (BO 8-1-2-15): The Board revised guidelines established in the Strategic Plan to prioritize funding of services as follows:

1. Revenue generating or cost/risk avoiding
 2. Emergency health and safety response (life and death)
 3. Minimal level state and federal mandates
 4. Board budget and service goals
 5. Prevention and youth
 6. Corrections/deterrence (law enforcement related) and treatment
 7. Assistance for vulnerable people and persons in need
-

It also considered the Financial Forecasts presented by the Budget/Financial Planning Manager, and directed the development of three budget options, with services being funded in accordance with the revised service priority guidelines:

Renewal Budget Option: This option assumed passage of a multi-year renewal of Secure Rural Schools which would require no service reductions in FY 08-09, but would require reductions in each of the subsequent four fiscal years.

Step-Down Budget Option: This option also assumed passage of a multi-year renewal of Secure Rural Schools, but required all service reductions be taken in one year, FY 08-09, to provide for a few years of service level stability.

NO Renewal Budget Option: This option assumed no renewal of Secure Rural Schools funding and required all service reductions be taken in one year, FY 08-09, to provide for service level stability until the financial forecast model showed that the structural deficit necessitates additional reductions in FY 12-13.

January/February 2008

General Fund Service Prioritization: The Board used Service Option Sheets (SOS) to prioritize services funded in whole or part by the General Fund, resulting in the General Fund Preliminary Service Ranking. In the Service Option Sheets, the Department Directors described the services provided, statutory or other mandates, outcome measures, and their evaluation of the impacts and risks involved with the various proposed funding levels. The departments and Budget Office prepared three budget options based on the Board's service priorities.

February & March 2008

Preparation for development of County Administrator's Proposed Budget: The County Administrator met with all departments and the Budget Office to review and evaluate budget options. He also met with public safety officials to consider and discuss the systemic consequences of the reductions and revise the prioritization if needed to better balance the interrelated services.

March 19, 2008

Budget Direction (BO 8-3-19-13): Following a day long goal setting session in which the Board was advised that it was unlikely Secure Rural Schools funding would be renewed, the Board directed the County Administrator propose a single budget assuming no renewal of the Secure Rural Schools funding and directed the Administrator to begin implementing service and personnel reductions as soon as practical.

April, 2008

County Administrator's Proposed Budget: After reviewing and consulting with each of the departments, considering all the information they had presented in the reviews, their proposed departmental budgets and SOS, and upon receiving the March budget direction, the County Administrator evaluated the program benefits and costs, the program effectiveness, the impacts to communities and citizens, and the risks of the choices presented in order to achieve a balanced budget. He used this evaluation and assessments to make determinations as to which programs would be funded and at what levels for his Proposed Budget. In the Proposed Budget the County Administrator restored a handful of specific services otherwise proposed for elimination in public safety and public health using some reserves, one time excess cash balance in the Health Benefit Fund, savings from the PC Replacement fund due to the cuts in personnel, and a one time transfer of funds from the Capital Improvement Fund for facilities.

April 29, 2008

Budget Message and Public Hearing: The County Administrator presented the Proposed Budget and delivered his Budget Message, an overview of the General Fund budget and five year General Fund financial forecast, and an overview of property tax revenue. The Budget Committee held a public hearing at which a number of residents testified about the effectiveness, risks and impacts of various programs proposed for funding, reductions or elimination.

May 1 – May 13, 2008

Budget Committee Meetings: Each meeting included presentations by staff, budget committee member questions and discussion, and public comment regarding the following areas of service, risks and community impacts:

- May 1st – Public Works
- May 6th – Prevention and Social Services
- May 8th – Public & Mental Health and Emergency Management/Search & Rescue
- May 13th – Public Safety

May 5, 2008

Presentation to Eugene Budget Committee: Commission Chair and Budget/Financial Planning Manager presented an overview of the proposed county budget to the Eugene Budget Committee to explain the risks and impacts of various programs proposed for reduction or elimination, including the potential impacts on city residents.

May 12, 2008

Joint Elected Officials Meeting: The Board discussed the Lane County budget with elected officials from Cities of Eugene and Springfield and identified the potential impacts the proposed reductions would have on residents of the cities and on the services the cities themselves provide. The City of Eugene proposed transferring \$4,500,000 City General Funds to the County and the County transferring \$4,500,000 of County Road Funds to the City, allowing the City to make needed transportation improvements and County to provide additional public safety and human services. This exchange reflected the concerns all parties had of the impacts that the loss of County services would have on the City residents and services. This meeting was followed by discussions by County Administrator and Eugene City Manager to craft a Road Fund/General Fund exchange agreement. Subsequent to the Joint Elected Officials meeting, the City of Springfield also proposed a transfer of \$250,000 of City General Funds to the County and the County transferring \$250,000 of County Road Funds to the City in recognition of the similar impacts that would occur from the loss of County services on Springfield residents.

May 15 and May 22, 2008

Budget Committee Deliberations and Public Hearings: The Budget Committee deliberated over the course of two meetings. The Budget Committee was presented with additional discussions and another three hours of public comment, after which they considered and weighed all of options to fund and provide services, the costs and benefits, the statutory or other mandates, the effectiveness, the risks involved to the community and the organization in eliminating or reducing the services at a variety of funding levels. The Budget Committee decided to use the service stabilization reserve (the General Fund reserves in excess of the 10% prudent person reserve) to restore a certain level of services otherwise slated for reduction or elimination (see Attachment D). They acknowledged that restoration of services through use of reserves or in the exchange of Road Funds for City General Funds meant that additional

future cuts in services would be necessary sooner than if the restorations were not made. The Budget Committee approved the FY 08-09 budget with service changes and restorations. The restorations are funded by 1) use of General Fund reserves, 2) exchange of Road Funds with the Cities of Eugene and Springfield in return for City General Funds, and 3) additional revenue leveraged by restored services. The Budget Committee deliberations included discussions and consideration of all the following topics:

- Comments by public
- Update on status of Secure Rural Schools Act renewal efforts and discussion of the uncertainty of the future of the County's General Fund
- Road Fund/General Fund exchange with Cities of Eugene and Springfield, Cities' expectations regarding exchange, and impact on County's Road Fund services to the community
- Use of Road Fund for traffic team deputies, revenue generation potential, and impact on Road Fund services to the community
- Sheriff's recommended changes to service priorities
- Technical adjustments to proposed budget (self-funded service restorations and net-zero changes)
- Status of General Fund reserves, the 10% prudent person reserve and service stabilization reserve established to provide service stability in future years
- Budget Committee priorities for spending of General Fund reserves and funds generated by exchange of Road Funds for city funds
- Information received throughout the budget process and at all of their previous meetings, including all information delivered with the Proposed Budget and the SOS

June 18, 2008

Board Worksession on FY 08-09 Budget: The Board reviewed the Budget Committee's Approved Budget, technical adjustments, and all materials required by local budget law. The Board considered and directed additional minimal use of service stabilization reserves to maintain two public health programs and redirected the use of certain Road Funds from payment of association dues to eligible Road Fund services, within the limits of local budget law.

June 25, 2008

FY 08-09 Budget Hearing and Adoption: This is a final opportunity for public to comment on the budget as approved by the Budget Committee. The hearing is scheduled at the last regular Board meeting prior to the statutory deadline to adopt a balanced budget. The Board may make additional final changes in response to information they receive at the hearing within the limits of local budget law, or approve the budget and direct staff reconvene the budget committee for a supplemental budget process to address additional changes or significant revenue or expenditure changes that occur during the FY 08-09 fiscal year. The Board has indicated it would reconvene the Budget Committee if Secure Rural Schools funding is renewed.
