Lane Manual Chapter 15.005 thru 15.035. Section 15.020 of Lane Manual states that the name should not exceed twelve (12) letters and one (1) word. In this case, the proposed name conforms with these standards.

B. **Analysis:**

Referral responses were received by the Transportation Planning & Subdivision Engineering sections of Public Works. Neither of the two responses posed any conflict for the proposed naming, and the proposed road does not conflict with any existing road names within Lane County.

A facility permit has been obtained and approved by the Department of Public Works Transportation Planning section.

A recorded document which conforms to Lane County easement standards has been submitted and approved by Jack Thomas of Subdivision Engineering.

4. **Conclusion:**

There seems to be no conflicts; therefore, it is recommended that the road in subject be named Nordahl Road.
