\_\_\_\_\_  
Site address

**PROPOSAL:** A request for a recreational vehicle to be connected to an existing sewage disposal system for temporary emergency use, pursuant to Lane Code 11.100-20.

This is not a land use decision; therefore, it does not require public notice and it can only be appealed by the applicant.

<b>APPROVAL CRITERIA</b>
--------------------------

**RECREATIONAL VEHICLE SITING**

**11.100-20 Criteria for Issuance.**

**(3) Recreational Vehicles.** A six-month permit may be issued for recreational vehicles to be connected to an existing sewage disposal system for temporary emergency use. The nature of the emergency shall be submitted in writing and must accompany the application. Acceptance of the request shall be at the discretion of the delegee of the Manager of the Land Management Division. Requests for additional six-month periods must be resubmitted as new applications. A self-contained unit used periodically for recreational purposes does not require a building permit unless the unit is in continuous use on private property for more than two weeks.

- (a) The recreational vehicle must observe setback requirements of LC Chapter 15 and applicable DEQ regulations.**
- (b) No notification of neighboring property owners is required.**
- (c) Only one recreational vehicle shall be connected to a system serving an existing dwelling, unless the property receives approval as a recreational vehicle park.**
- (d) Recreational vehicles connected to a system in an approved recreational vehicle park are exempt from permit requirements of this subsection.**

Explain the nature of the emergency. Attach additional pages if necessary. If approved, the RV may be connected to the existing septic system for up to six months. A new application is required every 6 months.
